🔗 https://innovativesoftbd.com

Security Automation Technology   **Feb 2023 - Aug 2023**
Web developer   Shyamoli, Dhaka

Abyad Tech   **Aug 2022 - Jan 2023**
Intern   Remote

Projects

Material Calculation Software

Aug 2024 - Sep 2024

🔗 https://matel-calculation-next.vercel.app
Quickly calculate iron weight and cost based on dimensions and price per unit. Ideal for engineers, fabricators, and buyers for accurate material estimation.

Blog Management

Aug 2025 - Sep 2025

🔗 https://news.teslaestshop.com
In Blog Management, users can send messages through forms, add news and categories, create custom content, scale content, and maintain it stylishly using an advanced editor.

Advance task management

July 2025 - Aug 2025

🔗 https://task.mec-bd.com
The **Advanced Task Management** system uses team-based role management to streamline collaboration. **Admins** and **Super Admin** can add or remove **users** and create tasks, while regular users can grab and complete available tasks. Clear role-based access ensures proper task distribution, accountability, and an efficient workflow.

Media Source Website

Jan 2025 - Mar 2025

🔗 http://mediasourcebd.com
The **Media Source Website** is a dynamic, responsive web platform designed to deliver rich news content across various categories such as politics, entertainment, technology, sports, and more. A key highlight of the site is its **dedicated Side News, Service, Page Module** and many more designed to keep readers informed with minimal read-time.

simple camera Android

July 2025 - Aug 2025

A simple camera app in React Native lets users take photos, toggle flash, switch cameras, preview pictures, and view previously taken photos in a gallery-style slide.

Image Edit Software

Oct 2024 - Oct 2024

🔗 https://image-edit-software.vercel.app

The image editing software, built with Next.js, Tailwind CSS, Daisy UI, and React, allows users to edit images with various tools while supporting UI theme management for customization.

money Management android

june 2025 - july 2025

This money management software allows you to view your total funds, track income and expenses, and manage your finances efficiently. It provides monthly tracking and summaries, letting you easily compare your current month's data with previous months.

Express Recharge Architecture

Dec 2024 - present

🔗 https://express-recharge.netlify.app

Express Recharge is a developer-friendly API framework designed for rapid backend development. With built-in MySQL integration and automated route generation, it enables you to build scalable applications swiftly. Features include zero configuration setup, modular architecture, file-based routing, and customizable middleware, making it ideal for both beginners and seasoned developers.
